LINX Nairobi - An Update

Inga Turner
Global Account Manager

LINX122

Who, What and Why LINX Nairobi – A Recap

- The first LINX footprint in Africa. A stand alone IXP to **keep traffic local**
- A **future-proof, interconnected network** that can scale and grow with the regions digital demand using technology from Nokia
- LINX Nairobi **went live** in November 2023
- Our Nairobi data centre partners are offering a **free cross connect** into LINX Nairobi to support the launch of the IXP
- We are working with IXAfrica to offer **free LINX peering services** until November 2026 for the further good of the local connectivity scene

The LINX Nairobi Network

A multi-site, interconnected network spanning 3 data centre locations

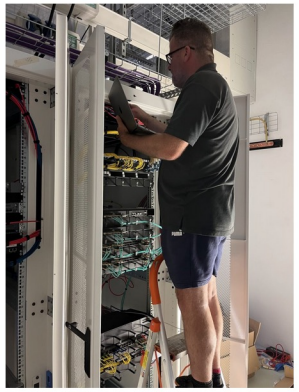
The Story So Far…

November 2023

- The LINX engineering team carried out the installation work and LINX Nairobi went live!



December 2023

- We welcome not only our first member but our first reseller partner for LINX Nairobi

linxnairobi

bics

January 2024

- The LINX team carried out the first LINX Nairobi Week.
- A week to meet local ISPS, knowledge share and assist any LINX member applications.

Of which… we had 6!

The Story So Far…Cont'd

February / March

- More applications, including existing global LINX member networks

April / May

- We continue to welcome local ISPs to the exchange.
  - MyManga Networks
  - MyISP

And More!

- LINX Nairobi Week 2 (6th – 10th May 2024)
- LINX Services are proving popular
- Microsoft Azure Peering Service (MAPS) *Coming Soon!*
- Meta ASN 63293 are now at LINX Nairobi and peering!

LINX Nairobi Week 2 (6th – 10th May)

- A week of collaborating with data centre partners, iColo, ADC and IXAfrica to meet as many local ISPs and networks as possible
